GAME DEVELOPER

Passionate Game Developer with over four years of Unity experience, specializing in VR simulations and PC games. Proven track record in crafting immersive VR experiences and realistic simulations, complemented by active participation and award-winning contributions in numerous game jams. Passionate about pushing creative boundaries and delivering engaging experiences across diverse gaming platforms.

KEY COMPETENCIES

Unity (+4 Year)	Object Oriented Programming	English (C1)
C#	Problem Solving	
VR Development	C++	

PROFESSIONAL EXPERIENCE

Uludag University **Nov 2022 - June 2023**
Student Assistant

Prepared routine business correspondence for office staff.

Peilabs LLC **July 2023 - August 2023**
Intern Game Developer

During my internship, I was responsible for designing and developing mechanics for 2D and 3D games as well as VR simulations.

Peilabs LLC **August 2023 - Present**
Part-Time Game Developer

I actively contributed to the design and development of mechanics for a range of projects, spanning from 2D and 3D games to VR simulations. My responsibilities included conceptualizing innovative gameplay elements, implementing intricate mechanics, and fine-tuning user interactions to enhance overall player experience.
